Dealer Alert

LICENCE PLATE SUPPLY

Over the past several days, we have been receiving calls from Members reporting that Service Ontario licence offices from Sault Ste. Marie to Sarnia, and areas between, were running low or had run out of licence plates altogether.

After reaching out to MTO and Service Ontario, we have been told that the supply problem has now been resolved and, as of today, all Service Ontario offices should have plates.

Please let us know if you encounter any offices that do not as we have a contact at Service Ontario that will work with us on that issue.
