## SANITIZER RECALLS

The irony of a recall on the very items you buy to protect yourself, your staff and your customers is not lost on us.

The UCDA strongly recommends that Members check their supplies of hand sanitizer to ensure they are not on the list provided by Health Canada’s recall for unsafe / poisonous levels of technical-grade ethanol.

You can view the list [here](#), reproduced below.

If you have any of these recalled products please **remove them from use immediately**. Consult a doctor if anyone has used these products and has health concerns and report any such adverse effects to Health Canada.
